**DESIGN**

Our instruments are designed for optimal balance, feel, comfort and responsiveness to deliver a seamless connection between the hand and the surgical site.

**SAFETY & RELIABILITY**

The craftsmanship and the quality of materials we select combine to deliver high performance, electro-safe instruments that deliver unrivalled durability, longevity and reliability.

- **Easy to re-process** Our instruments are designed to simplify re-processing.

- **Clinical performance** Our hand-held instruments are modular allowing you to build cost effective instrument trays whilst maximising patient safety and clinical performance.

### SINGLE USE INSTRUMENTS

We understand the impact inferior equipment can have on your performance, which is why we have worked closely with surgeons in the development of our Cadence™ single use laparoscopic instruments.

From the intuitive, versatile and ergonomic design of our Suction Irrigator, to the unique one-handed deployment of our Specimen Retrieval Device, Cadence™ offers

a wide range of superior features to provide effortless performance and minimal interruption to your surgical flow.

**Precision:**  
Precision tip provides constant, precise irrigation flow without compromising suction.

**Minimal: Leaks**  
Simplified internal mechanism minimises the chance of leaks.

**Reduced fatigue:**  
Ergonomic hand-piece for firm but comfortable instrument grasp reduces surgeon fatigue.

**Intuitive:**  
Icons, colours and grooved triggers ensure suction and irrigation functions are easy to identify.

**Configurable:**  
Dual shaft attachment options allow for quick and secure change between pistol and trumpet grip.

Our single use instruments are packed, sterilised and supplied as a complete instrument.

## SUPPORT

With Eisner™ you don't get a call centre, just a dedicated team of specialists ready to tailor your Eisner™ experience.

### Experience the difference

#### Book an obligation free trial

Our team can organise an obligation free, trial assessment of your instruments so you can see and feel the difference before you buy.

### Trade-in / replacement program

#### Manage your tray upgrades

If you are considering decommissioning an instrument our trade-in/replacement service will assist you to address one off replacements or the gradual upgrade of instrument sets. We accept Eisner™ and non-Eisner™ instruments.

### Care

#### Optimise Your Tray Performance

When you choose Eisner™ products our team are available to provide free comprehensive in-service training, support and tray assessments to guide servicing and repair.

# Enhance your every move

**Warranty** | Eisner™ offers a 12 month warranty against manufacturing defect on all metal components of the equipment. Damage and / or breakages caused by improper use or abuse of the equipment are not covered by warranty. Normal wear and tear is not covered. Warranty is null and void where components are mixed with non-Eisner™ instruments.

**Service & Repairs** | Instruments returned to us for repair/replacement will be assessed and a written quotation provided for you to make a decision on further action. In most cases for instruments beyond repair we can offer a trade-in replacement. Eisner™ keeps factory original spare parts in stock. All repairs should be returned to Eisner™ for repair in order to preserve the integrity of your instruments.

**Recommended Lifespan of Instruments** | Whilst Eisner™ laparoscopic instruments will function for many years, we recommend replacement prior to any obvious signs of wear and stress which could lead to an issue during surgery. We recommend a lifespan of 3 years on our handles and inserts and suggest that after that time, they are traded in on a new component. Insulated Tubes: By virtue of the fact that insulated tubes will be replaced once the insulation is damaged or compromised in any way, it is not envisioned that the lifespan of a sheath will be beyond 12 months. Instruments should be taken out of circulation immediately if it is found that identifying labelling is no longer visible.
