DESIGN

Our instruments are designed for optimal balance, feel, comfort and responsiveness to deliver a seamless connection between the hand and the surgical site.

SAFETY & RELIABILITY

The craftsmanship and the quality of materials we select combine to deliver high performance, electro-safe instruments that deliver unrivalled durability, longevity and reliability.

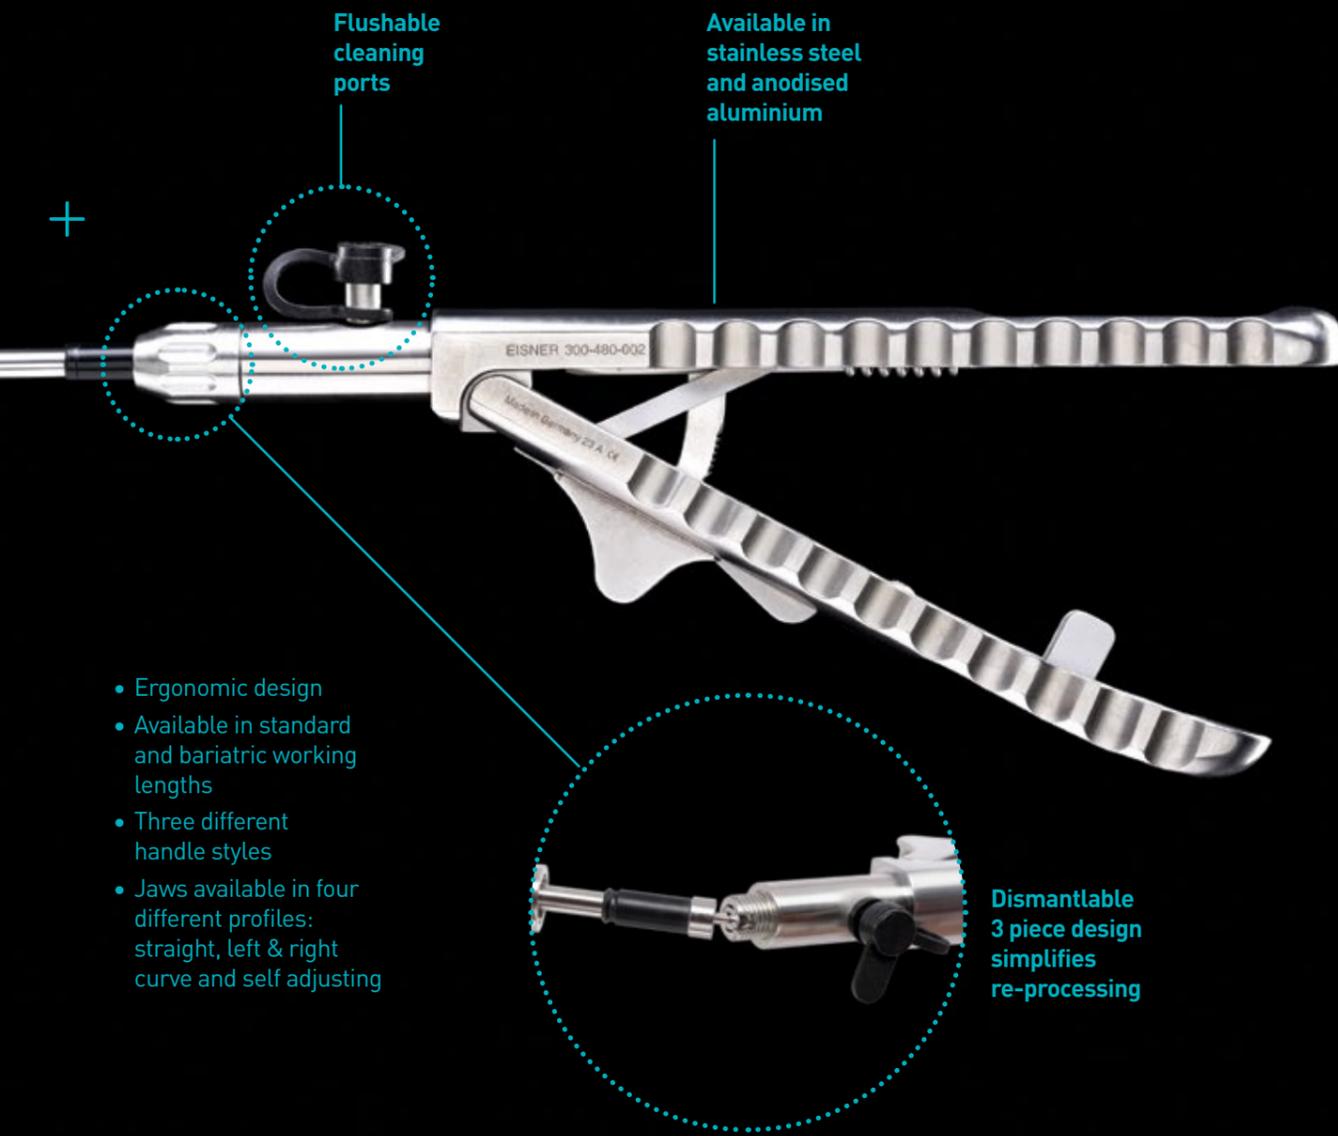

- **Easy to re-process** Our instruments are designed to simplify re-processing.

- **Clinical performance** Our hand-held instruments are modular allowing you to build cost effective instrument trays whilst maximising patient safety and clinical performance.

NEEDLEHOLDERS

Our Genesis Needleholder series offers ergonomic axial and pistol style handles together with a range of jaw inserts as part of a modular three-piece dismantlable design that simplifies re-processing whilst delivering optimal comfort, tissue grip and needle guidance during suturing.

- Ergonomic design
- Available in standard and bariatric working lengths
- Three different handle styles
- Jaws available in four different profiles: straight, left & right curve and self adjusting

Dismantlable 3 piece design simplifies re-processing

Needleholders - Handles

Genesis Handle I - Stainless Steel Axial Style

RE-ORDER	FEATURES	MIN QTY
300-480-002	Axial Style	1

Genesis Handle II - Lightweight Pistol Style

RE-ORDER	FEATURES	MIN QTY
300-480-001	Lightweight Pistol Style	1

Genesis Handle III - Lightweight Axial Style

RE-ORDER	FEATURES	MIN QTY
300-480-000	Lightweight Axial Style	1

Needleholders - Shafts

Shafts	DESCRIPTION	RE-ORDER	SIZE	FEATURES	MIN QTY
	330mm Genesis Shaft/Tube	300-480-033	330mm WL	Stainless Steel Tube with Stainless Steel Locking Nut	1
	450mm Genesis Shaft/Tube	300-480-045	450mm WL	Stainless Steel Tube with Stainless Steel Locking Nut	1

Needleholders - Inserts

Inserts	DESCRIPTION	RE-ORDER 33cm	RE-ORDER 45cm	SIZE	FEATURES	MIN QTY
	Genesis Insert Straight Jaw	300-405-130	300-406-130	12mm Jaw	Straight Tapered Single Action Jaw Fine Criss Cross Serration	1
	Genesis Insert Left Curve Jaw	300-405-140	300-406-140	12mm Jaw	Left Curve Single Action Jaw Fine Criss Cross Serrations	1
	Genesis Insert Right Curve Jaw	300-405-141	300-406-141	12mm Jaw	Right Curve Single Action Jaw Fine Criss Cross Serrations	1

	Flush Port/ Luer Lock Seal, Stainless Steel	300-999-010	Stainless Steel	1

SUPPORT

With Eisner™ you don't get a call centre, just a dedicated team of specialists ready to tailor your Eisner™ experience.

Experience the difference

Book an obligation free trial

Our team can organise an obligation free, trial assessment of your instruments so you can see and feel the difference before you buy.

Trade-in / replacement program

Manage your tray upgrades

If you are considering decommissioning an instrument our trade-in/replacement service will assist you to address one off replacements or the gradual upgrade of instrument sets. We accept Eisner™ and non-Eisner™ instruments.

Care

Optimise Your Tray Performance

When you choose Eisner™ products our team are available to provide free comprehensive in-service training, support and tray assessments to guide servicing and repair.

Enhance your every move

Warranty | Eisner™ offers a 12 month warranty against manufacturing defect on all metal components of the equipment. Damage and / or breakages caused by improper use or abuse of the equipment are not covered by warranty. Normal wear and tear is not covered. Warranty is null and void where components are mixed with non-Eisner™ instruments.

Service & Repairs | Instruments returned to us for repair/replacement will be assessed and a written quotation provided for you to make a decision on further action. In most cases for instruments beyond repair we can offer a trade-in replacement. Eisner™ keeps factory original spare parts in stock. All repairs should be returned to Eisner™ for repair in order to preserve the integrity of your instruments.

Recommended Lifespan of Instruments | Whilst Eisner™ laparoscopic instruments will function for many years, we recommend replacement prior to any obvious signs of wear and stress which could lead to an issue during surgery. We recommend a lifespan of 3 years on our handles and inserts and suggest that after that time, they are traded in on a new component. Insulated Tubes: By virtue of the fact that insulated tubes will be replaced once the insulation is damaged or compromised in any way, it is not envisioned that the lifespan of a sheath will be beyond 12 months. Instruments should be taken out of circulation immediately if it is found that identifying labelling is no longer visible.
