

MULTIGATE

Cadence™ S/I

Effortless precision.

The Multigate Cadence™ Suction Irrigator delivers effortless management of the operating field through precision and flowing ergonomic design.

Addressing surgeon concerns over fatigue, precision and interruptions to their surgical flow we created a single use suction and irrigation solution that effortlessly facilitates a clear operating field.

FEATURES

Precision and flow.

Comfort, control and flow are essential ingredients to a surgical procedure.

Multigate's Cadence™ Suction Irrigator delivers the effortless flow, ergonomic comfort, controlled suction and precision you expect from re-usable instruments, in a single use solution.

- ✓ Improved procedural flow
- ✓ Surgeon comfort
- ✓ Reliable suction performance
- ✓ Precision irrigation
- ✓ Inter-changeable grip
- ✓ Leak free
- ✓ Intuitive design

Intuitive: Icons, colours and grooved triggers ensure suction and irrigation functions are clear

Leak free: Simplified internal mechanism ensures leak free performance

Reduced fatigue: Ergonomic hand-piece for firm but comfortable instrument grasp reduces surgeon fatigue

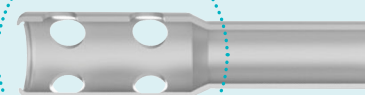

Configurable: Dual shaft attachment options allow for both pistol and trumpet grip

Cadence™ Suction Irrigation Device (Category: Laparoscopic Devices)
